

Clive started to tutor our daughter for her Chemistry, Physics and Biology GCSE's, which she was struggling with at her Grammar School. We were given his details by a family member who he had previously tutored.

We were very pleased with his professionalism and experience of the subjects our daughter needed support for. He has an excellent teaching manner which helped our daughter understand her subjects and she achieved an 'A' grade in all three Sciences.

Clive is now tutoring our daughter through her A levels in Chemistry and Biology and we are sure his support will help her to achieve excellent results again.

Mr & Mrs Rai

Clive began tutoring me for my GCSE's in Chemistry, Biology and Physics as I was struggling with the courses at my Grammar School. With his help and support I began to understand my subject contents and gained a A grade in all three Sciences.

He is now tutoring me through my A levels in Chemistry and Biology. Clive has a vast knowledge of the subjects I am studying for and provides the right material for me to study through and I hope to achieve excellent results once again.

S. Rai
