

I found Clive in the yellow pages originally!

Katie had a science teacher who was on long term sick leave and had little continuity in her biology lessons. No child likes extra tuition but Katie enjoyed her lessons with Clive and came on leaps and bounds. Homework was completed and if unexpected events came up Clive would do his utmost to accommodate us and reschedule.

Katie did really well in her GCSE science exams and due to Clive's teaching and Katie's hard work she exceeded her expectations.
